

Remote Sellers

Date Issued August 7, 2018
Revised November 9, 2018
Wyoming Department of Revenue

On June 21, 2018, the United States Supreme Court ruled in *South Dakota V. Wayfair* that on-line and other remote, out-of-state sellers can be required to collect state and local sales tax in those states where the seller does not have a physical presence but where they sell and deliver their products and services. Wyoming will begin requiring remote and on-line sellers, meeting the thresholds to license, and collect sales tax effective February 1, 2019. This requirement applies only if in the current calendar year or the immediately preceding calendar year; (1) the gross revenue from sales into Wyoming exceeds \$100,000 or (2) the business has made 200 or more separate transactions for delivery into Wyoming. However businesses wishing to voluntarily license in Wyoming may begin that process any time. Wyoming, as a member of the Streamlined Sales Tax Governing Board, has implemented standards and simplifications that will provide assistance to on-line and remote sellers affected by the Supreme Court's decision as you transition to collecting and remitting Wyoming sales tax.
